

Does Windows Host Utilities set link speed and target mapping for Emulex FC HBAs?

https://kb-stage.netapp.com/on-prem/E-Series/Management-Apps-KBs/Does_Windows_Host_Uilities_...

Updated: Wed, 24 Jun 2026 07:24:34 GMT

Applies to

- Windows Host Utilities
- E-Series
- Emulex FC HBAs

Answer

No, Windows Host Utilities sets `LinkTimeOut` and `NodeTimeOut` only as described in [FC HBA values set by Windows Host Utilities](#).

Additional Information

[Configure registry settings for Windows Host Utilities](#)
