

SCSI aborts after reenabling ISL ports following DWDM update

https://kb-stage.netapp.com/on-prem/ontap/mc/MC-KBs/SCSI_aborts_after_reenabling_ISL_ports_follo...

Updated: Wed, 24 Jun 2026 07:14:02 GMT

Applies to

- Metrocluster FC
- Dense Wavelength Division Multiplexing (DWDM) ISL

Issue

- Performance issue experienced on VMware environment after re-enabling ISL ports following DWDM update
- SCSI abort messages observed in VMware logs
- All ISL ports were enabled simultaneously
