

CONTAP-246437: NFSoRDMA: RDMA connections are Rejected by all LIFs on a given port after migrating the LIF to another port on the same node.

https://kb-stage.netapp.com/on-prem/ontap/Ontap_OS/NW_Issues/CONTAP-246437

Updated: Wed, 22 Apr 2026 01:47:28 GMT

Issue

The NFSoRDMA mount fails when the LIF fails over to a different physical port on the same node as its home port.
