

## Cannot see tab for previous versions of some shares in a volume on 7-mode

[https://kb-stage.netapp.com/Legacy/ONTAP/ONTAP\\_OS\\_\(7\\_Mode\)/Cannot\\_see\\_tab\\_for\\_previous\\_ver...](https://kb-stage.netapp.com/Legacy/ONTAP/ONTAP_OS_(7_Mode)/Cannot_see_tab_for_previous_ver...)

Updated: Wed, 24 Jun 2026 06:32:09 GMT

### Applies to

- Data ONTAP 8 operating in 7-Mode
- Data ONTAP 7 and earlier
- Shadow Copy client

### Issue

- The previous version tab for some shares in a volume can be seen, but cannot see the tab for other shares in the same volume.
- The Shadow Copy client is also installed.

- The following options are correctly set:
  - `options cifs.show_snapshot on`
  - `options cifs.ms_snapshot_mode xp`
  - `vol options nosnapdir off`
