

Discrepancies between aggregate and volume when using the `df` command

[https://kb-stage.netapp.com/Legacy/ONTAP/ONTAP_OS_\(7_Mode\)/Discrepancies_between_aggregat...](https://kb-stage.netapp.com/Legacy/ONTAP/ONTAP_OS_(7_Mode)/Discrepancies_between_aggregat...)

Updated: Wed, 24 Jun 2026 06:18:23 GMT

Applies to

- Data ONTAP 7 and earlier
- ONTAP 9

Issue

Output of `df -A` and `df` shows the difference between the amount of space used on the aggregate and the actual size of the volume in the kbytes column of the `df` command
