

## Active IQ Unified Manager acquisition fails with: Data source with name X was not found

[https://kb-stage.netapp.com/data-mgmt/AIQUM/AIQUM\\_Kbs/AIQ\\_UM\\_acquisition\\_fails\\_with\\_\\_Data\\_so...](https://kb-stage.netapp.com/data-mgmt/AIQUM/AIQUM_Kbs/AIQ_UM_acquisition_fails_with__Data_so...)

Updated: Wed, 24 Jun 2026 08:15:42 GMT

### Applies to

- Active IQ Unified Manager ( AIQUM )
- OnCommand Workflow Automation ( WFA )

### Issue

When doing a rediscover on any cluster data source from Unified Manager and clicking on "View Details" to view the job, there are errors for: "WFA: Cache Acquisition".

#### Task Details:

**Name:** submit.wfa.cache.acquisition.request

**Description:** Initiate cache acquisition on WFA for the UM data source (name = [Datasource\_name])

**Failure reason:** Data source with name '[Datasource\_name]' was not found.
