

Is it possible to make a permanent SSH access to AIQUM server on OVA installation?

https://kb-stage.netapp.com/data-mgmt/AIQUM/AIQUM_Kbs/Is_it_possible_to_make_a_permanent_S...

Updated: Wed, 24 Jun 2026 07:24:43 GMT

Applies to

- Active IQ Unified Manager (AIQUM) 9.x
- VMware Virtual Machine OVA

Answer

- No, it is not possible to make SSH connection permanently on an OVA
- This access is granted only for NetApp engineers
- It is officially unsupported if permanent SSH access is setup for an OVA
- If permanent SSH access to the OS is needed, please install AIQUM on RHEL/CentOS

- Temporary access can be enabled through use of a [diag user](#).
