

DR CONFIG REPLICATION FAILED: Data-fpolicy-client cannot be added to service policy

https://kb-stage.netapp.com/on-prem/ontap/mc/MC-KBs/DR_CONFIG_REPLICATION_FAILED__Data...

Updated: Wed, 24 Jun 2026 07:13:57 GMT

Applies to

- 2 Node MetroCluster
- Automatic Non-Disruptive Upgrade (ANDU)
- ONTAP 9.8

Issue

After upgrading the first node in a 2 node MetroCluster to ONTAP 9.8+, errors similar to the below are observed:

```
Cluster : ClusterA  
Vserver : vs-cifs01
```

Partner Vserver : vs-cifs01-mc
Configuration State : degraded
Stream Status : processing-task
Failed Row : Table Name: vs_service_policies_view, Operation: get, Fields: vs-cifs01-

mc

default-data-blocks data-core data-iscsi data-fpolicy-client - "data-core:
0.0.0.0/0" "data-iscsi: 0.0.0.0/0" "data-fpolicy-client: 0.0.0.0/0" 7 - true

Failed Reason : Apply failed for Object: vs_service_policies_view Method: baseline.

Reason:

Internal error. Failed to update service policy "default-data-blocks". Reason:
Service "data-fpolicy-client" cannot be added to service policy
"default-data-blocks" because the service is not known to the cluster. Use
the "network interface service show" command to review available services.

Use

the "network interface service-policy show" command to review the state of the
policy. Retry the command, if necessary.
