

LUN connectivity lost during upgrade of ONTAP to 9.9.1

https://kb-stage.netapp.com/on-prem/ontap/mc/MC-KBs/LUN_connectivity_lost_during_upgrade_of_O...

Updated: Wed, 22 Apr 2026 02:10:13 GMT

Applies to

- ONTAP 9.9.1
- 2-node MetroCluster

Issue

- After performing switchover/switchback during ONTAP upgrade LUN connectivity is lost.
- On the sync-destination vserver, missing igroups and lun mappings are identified by running ONTAP CLI commands [igroup show](#) or [lun show](#).
- LUN connectivity is restored after the final switchback.
