

SQL instance is not registered when configuring SQL host or FCI log directory in SnapCenter

https://kb-stage.netapp.com/data-mgmt/SnapCenter/SC_KBs/SQL_instance_is_not_registered_when_...

Updated: Wed, 24 Jun 2026 06:18:22 GMT

Applies to

- SnapCenter Server (SC)
- SnapCenter Plug-In for SQL (SCSQL)
- Host Log Directory (HLD)

Issue

After choosing the HLD disk, when saving the configuration, get the error:

```
SQL instance <HOSTNAME>\<INSTANCE_NAME> is not registered
```
