

Storage Health Check is not responded due to IP address conflict with Ingress Network

https://kb-stage.netapp.com/on-prem/solidfire/Element_OS_Kbs/Storage_Health_Check_is_not_respon...

Updated: Wed, 24 Jun 2026 06:32:12 GMT

Applies to

- Management Services
- Storage Node MIP is in 172.16.0.0/22 address range

Issue

- Storage Healthcheck has never completed.
- Following error message appears when trying it again.

```
A health check was initiated at another source and is currently running on this cluster. Try the operation again in a few minutes.
```
