

'Duplicate entry for key 'PRIMARY' error in WFA while AIQUM datasource acquisition

https://kb-stage.netapp.com/Legacy/OnCommand_Suite/'Duplicate_entry_for_key_'PRIMARY'_error_in...

Updated: Wed, 24 Jun 2026 06:32:14 GMT

Applies to

Oncommand Workflow Automation (WFA) 5.1.1

Active IQ Unified Manager (AIQUM) 9.8 P1

Issue

We got the below error message in WFA and it says : Duplicate entry '156317' for key 'PRIMARY' of qtree

```
021-09-28 06:33:53,219 ERROR
```

```
[com.netapp.wfa.job.backend.JobsExecutionInterceptor] (Thread-2326 (ActiveMQ-client-global-threads)) Job CacheJob{, dataSourceId=DataSourceInfo{id=26, name='ActiveIQUM9.8', connectionDetails=ConnectionDetails{id=69, ip='AIQUM_IP', port=3306, username='wfa', password='*****', databaseName='',
