

How to create a custom SATP claim rule in ESXi for ONTAP 9

https://kb-stage.netapp.com/on-prem/ontap/OHW/OHW-KBs/How_to_create_a_custom_SATP_claim_r...

Updated: Wed, 24 Jun 2026 07:13:55 GMT

Applies to

- VMware ESXi hypervisor
- ONTAP 9
- iSCSI
- FCP
- FCoE

Description

- For high-performance environments, the default claim rule in ESXi may not be able to fully utilize all of the storage and network resources available to the system.
- Therefore in such circumstances, you may wish to create a custom claim rule to increase the load balance

algorithm to alternate paths for each IO, instead of waiting for the default threshold before using more paths.
