

Switchback vetoed - DR Partner not ready

https://kb-stage.netapp.com/on-prem/ontap/mc/MC-KBs/Switchback_vetoed_-_DR_Partner_not_ready

Updated: Wed, 22 Apr 2026 02:10:21 GMT

Applies to

- MetroCluster
- Controller upgrade

Issue

- Switchback operation is vetoed with the following reason:

```
Cluster_A::> metrocluster operation show
Errors: Failed to validate the node and cluster components before the
switchback operation.
```

```
Cluster_A:(non-overridable veto): The DR partner is not
ready for the switchback operation. Contact technical support for
```

assistance.

- The following output show discrepancy between cluster and node-level view of MetroCluster state:

```
Cluster_A::> metrocluster node show
```

```
DR                               Configuration  DR
Group Cluster Node              State          Mirroring Mode
-----
1      Cluster_A
      Node1      configured    enabled      switchback vetoed
      Cluster_B
      Node2      configured    enabled      negotiated switchover
completed
```

```
Cluster_A::> metrocluster show
```

```
Configuration: two-node-fabric
```

```
Cluster                          Entry Name          State
-----
Local: Cluster_A
                                Configuration State  configured
