

## Can we check the compatibility for the SAN attached devices with Brocade FOS?

[https://kb-stage.netapp.com/on-prem/Switches/Brocade-KBs/Can\\_we\\_check\\_the\\_compatibility\\_for\\_the...](https://kb-stage.netapp.com/on-prem/Switches/Brocade-KBs/Can_we_check_the_compatibility_for_the...)

Updated: Wed, 24 Jun 2026 08:16:24 GMT

### Applies to

Brocade Switch

### Answer

- Brocade does not certify any third-party devices with their Hardware and FOS.
- It is up to the third party manufacturers and solutions providers to determine the compatibility of their devices with Brocade.
- Recommendation would be to check with the respective third party vendors regarding the Brocade switch compatibility with the SAN devices.
