

## NDE fails to add a compute node when vCenter is at version 8.x

[https://kb-stage.netapp.com/on-prem/solidfire/Element\\_OS\\_Kbs/NDE\\_fails\\_to\\_add\\_a\\_compute\\_node\\_...](https://kb-stage.netapp.com/on-prem/solidfire/Element_OS_Kbs/NDE_fails_to_add_a_compute_node_...)

Updated: Wed, 24 Jun 2026 07:24:47 GMT

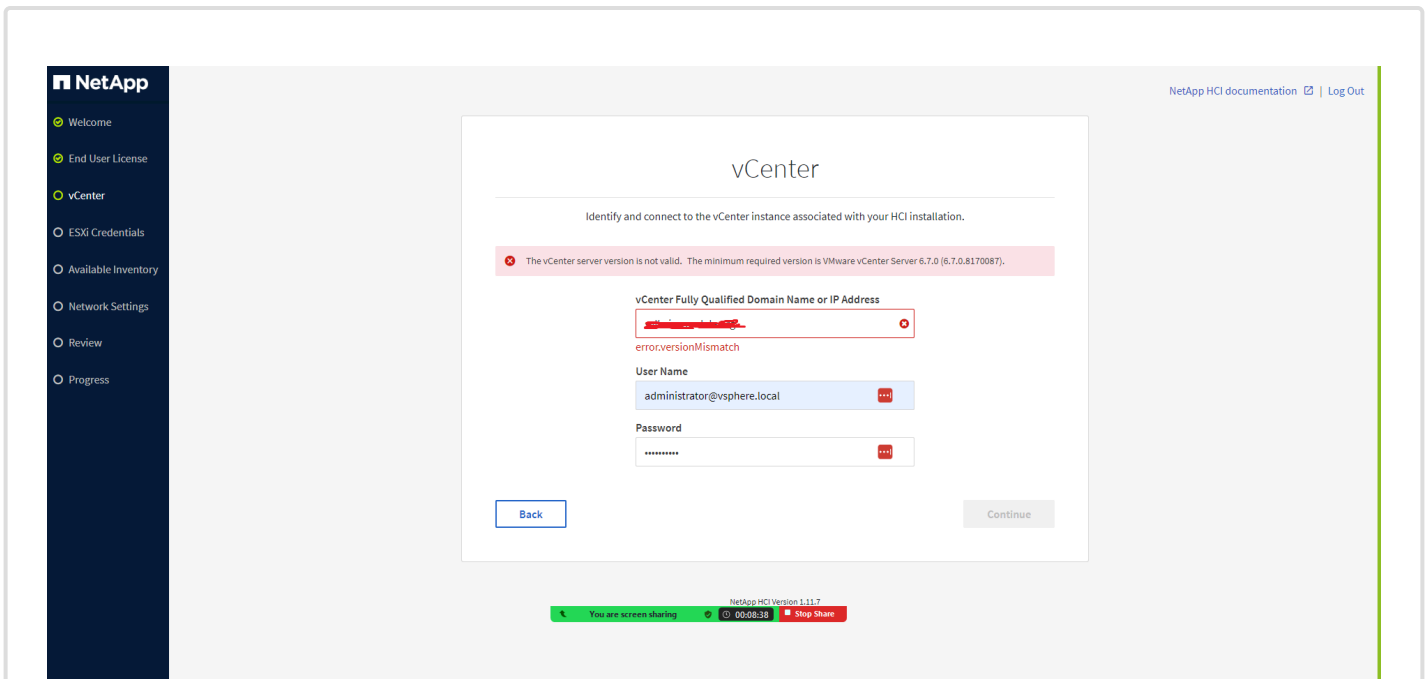

### Applies to

- NetApp HCI 1.11
- VMware vCenter 8.x

### Issue

NDE fails to add a compute node when vCenter is at version 8.x and displays following error -

```
The vCenter server version is not valid. The minimum required is VMware  
Server 6.7.0 (6.7.0.8170087)  
error.versionMismatch
```
