

How to identify ONTAP EMS events for subscription in Active IQ Unified Manager

https://kb-stage.netapp.com/Legacy/OnCommand_Suite/How_to_identify_ONTAP_EMS_events_for_s...

Updated: Wed, 24 Jun 2026 07:13:54 GMT

Applies to

- ONTAP 9.3.x and above
- ONTAP EMS
- OnCommand Unified Manager 7.x - 9.5.x
- Active IQ Unified Manager 9.6.x and above

Description

OnCommand Unified Manager has been rebranded to Active IQ Unified Manager as of the 9.6 release. For the purposes of this article, Unified Manager will refer to OnCommand Unified Manager 7.x - 9.5.x and Active IQ

Unified Manager 9.6.x and above.

Unified Manager introduced a feature in the 7.0 release that allows Unified Manager to subscribe to specific ONTAP EMS events. In this scenario, Unified Manager serves as a centralized location to receive critical EMS events and send notifications to administrators through alerts configured against the EMS events. Centralized monitoring and management eases configuration of critical EMS events and alert notifications based on these critical EMS events.
