

AUTO-ARCHIVED: CIFS replay failure after modification of netbios name

https://kb-stage.netapp.com/on-prem/ontap/da/NAS/NAS-KBs/CIFS_replay_failure_after_modification_...

Updated: Wed, 22 Apr 2026 02:10:19 GMT

Applies to

- ONTAP 9
- CIFS

Issue

- After making modifying the NetBIOS name for an SVM's CIFS server, EMS begins reporting `cifs.replay.failure` errors
- This may adversely impact any CIFS server in the cluster, as the corresponding CIFS replay module is shared among all SVMs on a given node
