

SC fails to create or modify schedules with error: Requested value WEDNESDAY was not found

https://kb-stage.netapp.com/data-mgmt/SnapCenter/SC_KBs/Failed_to_create_or_modify_schedules_...

Updated: Wed, 24 Jun 2026 07:14:00 GMT

Applies to

- Linux Host running SnapCenter for oracle plugin (SMO)
- Linux Host running SnapCenter for oracle plugin (SAP HANA)
- Linux Host running SnapCenter custom plugin (SCC)

Issue

When `Add-SmResourceGroup` command is executed from **SCCLI** to create the **Resource Group** with a policy that needs to be scheduled on **Days Of The Week**, the command fails with `:ERROR: Failed to create or modify schedules. Error: Requested value 'WEDNESDAY' was not found. Server return code: -1`
