

Kubernetes - mount: wrong fs type, bad option, bad superblock

https://kb-stage.netapp.com/cloud/Astra/Trident/Kubernetes_mount_wrong_fs_type_bad_option_bad_s...

Updated: Wed, 24 Jun 2026 08:15:44 GMT

Applies to

Kubernetes, all versions

Issue

When mounting a NFS volume, the following error is encountered:

```
mount: wrong fs type, bad option, bad superblock on 10.0.14.31:/plexus_k8s_sc,  
missing codepage or helper program, or other error  
(for several filesystems (e.g. nfs, cifs) you might  
need a /sbin/mount.<type> helper program)
```
