

## Trident PVC creation failed with error Unknown desc = no available backends for storage class

[https://kb-stage.netapp.com/cloud/Astra/Trident/Trident\\_PVC\\_creation\\_failed\\_with\\_error\\_Unknown\\_de...](https://kb-stage.netapp.com/cloud/Astra/Trident/Trident_PVC_creation_failed_with_error_Unknown_de...)

Updated: Wed, 24 Jun 2026 07:24:46 GMT

### Applies to

Astra Trident

### Issue

- New PVC create operation fails with following error:

```
Warning ProvisioningFailed 12m (x13 over 17m)
csi.trident.netapp.io_trident-
controller-8449798487-bzknr_b4762cee-6367-4711-858c-58b4029bce88 failed to
provision volume with StorageClass "ontap-lab-iscsi-1": rpc error: code =
Unknown desc = no available backends for storage class <SC_Name>
```

- Viewing the backend shows online state:

```
tridentctl get backends -n trident
```

NAME	STORAGE DRIVER	UUID	STATE	USER-STATE	VOLUMES
ontap-lab-iscsi-1-backend	ontap-san-economy	3fe9b088-329b-43cd-835d-bbb981f44096	online	normal	0
