

AWS volumes changed to SC1 from GP3 with Tiering showing as disabled

https://kb-stage.netapp.com/cloud/Cloud_Volumes_ONTAP/AWS_volumes_changed_to_SC1_from_G...

Updated: Wed, 24 Jun 2026 07:13:57 GMT

Applies to

- BlueXP
- Cloud Volumes ONTAP (CVO)
- AWS
- Cloud Tiering

Issue

- Some volumes may have been changed from GP3 to SC1 or another disk type on the AWS side to save on costs, but these may not be supported by CVO.
- This can result in Cloud tiering showing disabled.
