

## NFS mounts on target show file and group as nobody when data is migrated using BlueXP

[https://kb-stage.netapp.com/cloud/Cloud\\_Volumes\\_ONTAP/NFS\\_mounts\\_on\\_target\\_show\\_file\\_and\\_gr...](https://kb-stage.netapp.com/cloud/Cloud_Volumes_ONTAP/NFS_mounts_on_target_show_file_and_gr...)

Updated: Wed, 24 Jun 2026 06:07:59 GMT

### Applies to

- Cloud Volumes ONTAP (CVO)
- BlueXP copy and sync
- NFS

### Issue

- When data is migrated using BlueXp, NFS mounts on target show file and group owner as nobody
- Rsync data copy shows the correct file and group owner
