

## Not able to access the shares via data LIF after SVMDR switchover

[https://kb-stage.netapp.com/cloud/Cloud\\_Volumes\\_ONTAP/Not\\_able\\_to\\_access\\_the\\_shares\\_via\\_data...](https://kb-stage.netapp.com/cloud/Cloud_Volumes_ONTAP/Not_able_to_access_the_shares_via_data...)

Updated: Wed, 24 Jun 2026 08:16:13 GMT

### Applies to

- Cloud Volumes ONTAP (CVO)
- Microsoft Azure
- SVMDR

### Issue

CIFS and SMB users are unable to access the shares once the source cluster is stopped and DR cluster is started.
