

Is it possible to combine two aggregates to one and delete the empty aggregate in Blue XP?

https://kb-stage.netapp.com/cloud/ncds/nc/Cloud_Manager/Is_it_possible_to_combine_two_aggregate...

Updated: Wed, 24 Jun 2026 06:32:07 GMT

Applies to

- Cloud Volumes ONTAP (CVO)
- Blue XP (Formerly Cloud Manager)
- Aggregates

Answer

- Yes, Blue XP will automatically delete an aggregate that has no data in it after 12 hours.
- If there is data in the aggregate that is unused, the aggregate can be deleted manually also.
